6:51 PM This is a listing of Windows Registry keys and values related to Parallels Tools, a set of utilities that enhance the performance and usability of virtual machines running on Parallels Desktop for Mac. Parallels Tools includes features like mouse synchronization, clipboard sharing, time synchronization, and others. In this specific listing, there are several registry keys related to different Parallels Tools features and macOS applications. These keys store settings, preferences, and other information about these applications and features. For example, there are keys related to: Font settings Guest utilities • Various macOS applications, such as Adobe Acrobat Reader, AirPort Utility, App Store, Bartender 4, Books, Calendar, Contacts, Dictionary, Discord, Docker, FaceTime, etc. The values under these keys store specific settings or associations for each application, like URL associations that map custom URL schemes to the corresponding macOS applications.
